

Have you met our TIP Squad at Leir or Chappaqua? They're enterprising young adults with a knack for technology and a passion for helping others, training people with disabilities to overcome everyday barriers through tech.

The group recently won a \$10,000 grant award from The Coleman Institute in Colorado, which promotes equal access to information and technology for people with disabilities. They believe in our work—and we believe in theirs.

**[If you have seen or heard about our success with technology to improve people's lives, please consider signing The Coleman Institute](#)**

**[declaration to make these tools affordable and accessible to everyone.](#)**

By signing the declaration, you'll add your voice to a call for greater equality and you'll help Ability Beyond measure our impact. Thank you!

**[Learn how the TIP Squad can help you by visiting Empowering Technology portal online!](#)**
